

**PREMIUM INPATIENT STEP-DOWN CARE**

# Clinical Excellence. Elite Recovery.

Where clinical surgery ends, physical restoration begins.  
Bridging the critical recovery gap between hospital discharge  
and a safe, confident return to independent home living.

 **Stroke & Neuro  
Rehabilitation**

 **Cardio-respiratory  
Rehabilitation**

 **Ortho Clinical and Post  
operative Rehabilitation**

 **Elderly Fall Prevention**

## CORE SPECIALIZATIONS

## Clinical Recovery Pathways

### 01 Stroke & Neuro Rehab

Intensive reconditioning therapies for ischemic strokes, hemiplegia, Parkinson's disease, and spinal cord injuries. Focused on neuroplasticity restoration, fine motor coordination, and daily function retraining.

 **MULTI-DAILY PHYSICAL THERAPY SESSIONS**

### 02 Post-Op Ortho Recovery

Accelerated protocols following Total Knee Replacement (TKR), Total Hip Replacement (THR), and complex spine surgeries. Designed to restore joint ROM, rebuild lower-limb strength, and ensure perfect gait mechanics.

 **PREVENTS STIFFNESS & POST-SURGICAL SCAR TISSUE**

### 03 Cardiorespiratory Rehabilitation

Medically supervised aerobic training and airway clearance post-bypass heart surgery, valve replacements, and chronic pulmonary reconditioning. Rebuilds heart resilience and lung capacity safely.

 **CONTINUOUSLY MONITORED VITAL TELEMETRY**

### 04 Geriatric Fall Prevention

Evidence-based balance retraining, advanced stance correction, and gait re-education for elderly patients. Eliminates fear of falling and ensures maximum environmental navigation safety at home.

 **STANCE CORRECTION & GAIT ANALYSIS**

## ACCOMMODATIONS &amp; LEADERSHIP

## Premium Suites & Clinical Direction

### Private & Semi-Private Suites

#### Single Sharing Suite

PREMIUM

Maximum physical privacy and acoustic isolation to focus heavily on clinical rehabilitation. Features dedicated nursing alert systems and luxury room ventilation.

✓ Individual AC   ✓ Vitals Sync

#### Double Sharing Room

HYGIENIC

Spacious, sterile shared layout optimized for patient safety and cost-effective clinical nursing. High hygiene controls with separate patient zones.

✓ Generous Spacing   ✓ Nurse Monitoring

### Clinical Leadership

#### Dr. Ashok P. Kota

##### LEAD PHYSIOTHERAPIST & CLINICAL DIRECTOR

BPT   PG Dip. Osteopathy (Canada)   PG Dip. Chiropractic (Sweden)

Over 17+ years of clinical rehabilitation experience. Combines Canadian osteopathic manual alignment techniques and Swedish chiropractic protocols to deliver integrated, evidence-based structural healing.

#### 24/7 Registered Inpatient Nursing

 Round-the-clock vitals tracking, telemetry monitoring, expert medication administration, and rapid doctor emergency response.
